Line graph showing the evolution of the average number of people in the queue (SOLA LINEE) and the average height of the queue (SOLA ALTEZZE) over 34 time points. The Y-axis represents the number of people, ranging from 0 to 250. The X-axis represents time points from 0 to 34. The 'SOLA LINEE' series (blue line) starts at 238.05, peaks at 244.80 at time point 10, and ends at 244.80 at time point 34. The 'SOLA ALTEZZE' series (red line) starts at 238.05, peaks at 239.05 at time point 10, and ends at 244.80 at time point 34. The graph also includes a table with the following data:
